CREATION STORIES

CONTEMPORARY NATIVE
ART BIENNIAL, 7TH EDITION

Until June 23

Open to all

Art Gallery

The Stewart Hall Art Gallery welcomes the 7th edition of the Contemporary Native Art Biennial. Organized by a collective of four curators, each of whom will represent a geographical and cultural zone determined by one of the cardinal points: Lori Beavis will represent the South and Centre, Emma Hassencahl-Perley the East, Jake Kimble the West, and Teresa Vander Meer-Chassé the North.

The theme refers to the founding myths of Indigenous people, which represents a spiritual and nourishing territory as well as a place where living creatures dwell and live. While the story of Turtle Island varies somewhat from nation to nation, it is always a creation story about a turtle that holds the world on its back as a symbol of life and the Earth.
